WyzeSales

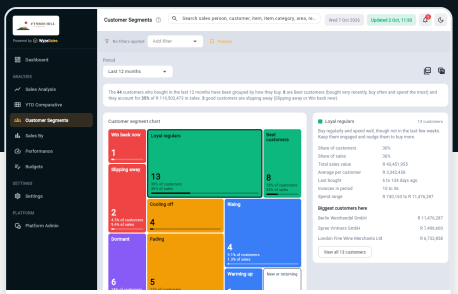

Works with any ERP or accounting system

A 360° view of your sales, built from your ERP data.

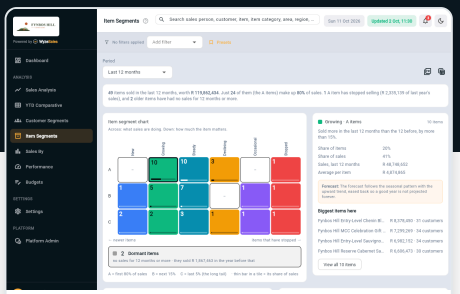

Every customer, sales person, product, area and month, analysed from every angle. With customer and item segmentation, budgets, targets, alerts, optional AI Insights and Wyze Owl built in. Synced every night. No exports. No spreadsheets.

Dashboard: targets, margin, coverage, top accounts

Customer segments: who to thank, call and win back

Item segments: what is growing, declining or stopped

360° of your sales

See the same numbers from every angle

Filter and combine any of these, from the big picture down to the individual invoice line.

Sales people · Customers · Customer category · Items · Item category · Range · Group · Type · Segments · Area · Region · Country · Year, quarter, month · Documents

OPTIONAL

AI Insights: your morning briefing

WyzeSales calculates every figure itself. AI then puts it into plain English, only for companies that switch it on.

- **What changed:** what moved in your sales and why it matters.
- **Needs attention:** customers and items to check, each with a next step.
- **You decide:** mark each one Done or Defer it.

OPTIONAL

Wyze Owl: ask in your own words

A chat inside WyzeSales. Type a question and get a short answer worked out from your own sales data.

- **Ask anything about sales:** customers, items, reps, branches, targets, trends.
- **Checked and safe:** figures are checked, and each login sees only what it may.
- **Your choice:** three monthly tiers, Light, Medium or Heavy.

What you get

- **Customer and item segmentation**
  From Best customers to Win back now, and Growing items to Stopped.
- **Sales analysis**
  Chart or table, with your target on the trend.
- **Year-on-year comparison**
  Three financial years side by side, like for like.
- **Secure, role-based access**
  Per user, branch and role. On desktop, tablet and phone.
- **Executive dashboard**
  Six headline measures, with month, quarter and year views.
- **Targets, budgets and alerts**
  % to target, gap, seasonal forecasts, and warnings of losses.
- **Set up for your business**
  Your own groupings and sales rules, in your words.
- **Your data stays yours**
  Read-only from your ERP. We never change anything in it.

1 Connect to your ERP or accounting database · **2 Sync nightly**, automatically · **3 Ready** each morning
